Monday, March 30th, 2020

Dear Parents & Students,

With the Coronavirus altering our daily routines, Governor Wolf has extended the statewide school closure for an additional 2 weeks. Due to this announcement, administration has been actively constructing a plan to provide remote educational opportunities for all students. Google Classroom is the selected platform to deliver instructional materials to our students. Students may utilize any device to complete their Google Classroom assignments, however if a student does not have a device at home or left their iPad at school, they must make an appointment with their building administrator to retrieve their device. Online instruction will begin on April 6th, if you do not have internet access, please contact your child's school.

A Google Classroom handout is posted on the district's webpage under the COVID-19 button for your review. You may also find a copy of the handout on the district's Facebook page. Your child's email address and password will be documented on the 3rd nine weeks report card, which will be mailed home the week of March 30th. Please check your child's school email for a class code to join each of your child's courses. If your teacher has already added you directly into their class, login to Google Classroom to begin by using the same email address & password.

Please take the time to read the handout information on Google Classroom. This is a learning curve for everyone in the state / nation who is converting over to create remote classrooms during this temporary closure of our in-person live school routine.

If you have any questions, please see the contact information for Administration.

Sincerely,

Edward A Colebank
